Unit 2 — Exploring Our Environment (Part 2)

Objective (NERDC): Explore the school environment (classroom, playground, toilet, staff room) and the home environment (bedroom, kitchen, living room, bathroom, compound); identify the people in our environment; understand safety; take care of our environment by keeping it clean.

Stage: Absorb → Connect (name, notice, recall; light compare)

Come and Explore! (Our Story) ENRICHMENT

Zari and Zuri now know that their environment is everything around them. Today they want to explore it more.

"Our school has so many places!" said Zuri. They peeped into the classroom, ran across the playground, found the toilets, and waved at the teachers in the staff room.

"And our homes have many places too," said Zari. "Come, let us explore them all!"

> ***Illustration:*** *Zari and Zuri exploring their school — classroom, playground, toilets and staff room — with the teacher.*

Remember? ENRICHMENT

Last week we learned that our environment is everything around us, and we used our five senses.

Quick — name the five senses! (see, hear, smell, touch, taste)

Today we explore the PLACES and the PEOPLE in our environment.

Places in Our School CORE

Our school has many places. In each place we do something different:

- The **classroom** — where we learn.
- The **playground** — where we play.
- The **toilet** — where we wash and keep clean.
- The **staff room** — where our teachers work and rest.

Places in Our Home CORE

Our home has many places too:

- The **bedroom** — where we sleep.
- The **kitchen** — where food is cooked.
- The **living room** — where the family sits together.
- The **bathroom** — where we bath and keep clean.

- The **compound** — the open space around the house.

People in Our Environment CORE

We are not alone. There are people all around us:

- At home: our **family** — mummy, daddy, brothers and sisters.
- At school: our **teachers** and our **friends**.
- Near our home: our **neighbours**.

All these people are part of our environment.

Staying Safe in Our Environment CORE

We must always stay safe:

- Do not touch fire or hot things in the kitchen.
- Do not play near dirty water or deep gutters.
- Hold a grown-up's hand near the road.
- Tell a grown-up at once if something is not safe.

Let's Look Together (Examples) CORE

Example 1 — Places. Where do we cook food? The kitchen. Where do we sleep? The bedroom. Where do we learn? The classroom.

Example 2 — People. Who teaches you at school? The teacher. Who lives beside your house? A neighbour.

Example 3 — Safe or not? Point to one safe thing and one thing that is not safe that you can see right now.

Do & Discover: Our Places Walk ENRICHMENT

Walk with your teacher around the school. As you go:

- **NAME:** each place you pass — classroom, playground, toilet, staff room.
- **TELL:** what we do in each place.
- **GREET:** wave and greet one person you meet — a teacher or a friend.

At home: with a grown-up, walk through your home and name every room.

Illustration: *Children on a walk around the school, naming the playground and toilets, greeting a teacher.*

Keeping Our Environment Clean ENRICHMENT

A good child keeps their environment clean and safe:

- Put rubbish in the bin, not on the ground.
- Keep your classroom and your bedroom tidy.

- Do not draw on the walls.
- Wash your hands after using the toilet.

When we keep our environment clean, everyone stays **healthy and happy.**

Tell It Back & My Notebook ENRICHMENT

Tell a friend: "In my home there is a ____ and a ____." (name two rooms.)

In my notebook: I draw my favourite place in my school or home, and I write its name under it.

Think Deeper CORE

- Why do we cook food in the kitchen and not in the bedroom?
- Which is safe: playing on the playground, or playing near a deep gutter?
- Same or different: how is your classroom different from your bedroom?
- What would happen if nobody kept the classroom clean?

Quick-Fire! (Answer Fast) CORE

1. Where do we learn in school?
2. Where is food cooked at home?
3. Who teaches you at school?
4. Name one way to keep your environment clean.
5. Should you play near a deep gutter? Yes or no?

Have I Got It? (Mastery Check) CORE

You have mastered this unit when you can:

✓ Name at least three places in school and three places at home.

✓ Name the people in your environment (family, teacher, friend, neighbour).

✓ Say one way to stay safe and one way to keep your environment clean.

> **Not yet?** Take another short places-walk and name each place aloud, then try again. We move on when you are ready.

Unit 2 — Exploring Our Environment (Part 2)

How this works: exercises move from supported (Tier 1) to independent (Tier 3). Answers are at the back for self-checking. Real print pages will carry pictures where words are shown in brackets.

Tier 1 — Let's Start Together

1. **Match the place to what we do there.** Draw a line to join them.

Place	What we do
Kitchen	Sleep
Bedroom	Play
Playground	Learn
Classroom	Cook
Bathroom	Bath

2. **Circle the people you meet at school.**

teacher · friend · classmate · astronaut

Tier 2 — Now You Try

3. **Fill in the blank.** We cook our food in the _____.
4. **Fill in the blank.** We sleep in the _____.
5. **Write the name of one person who lives near your home.** _____

Tier 3 — Stretch Yourself

6. **Name two places in your school** and say what we do in each one.
   - Place: _____ We: _____
   - Place: _____ We: _____
7. **Keeping clean.** Write one way you can keep your classroom clean. _____

Quick-Answer Drill (60 seconds)

Ask a friend to time you. Answer out loud, fast!

1. We learn in the _____.
2. We cook in the _____.

3. Our teacher works at _____.
4. Rubbish goes in the _____.
5. Name one person in your family.

Take It Home

> This evening, walk through your home with a grown-up. Name every room, and help to tidy one of them.

Answers (for self-check)

1. Kitchen–Cook, Bedroom–Sleep, Playground–Play, Classroom–Learn, Bathroom–Bath. 2. teacher, friend, classmate (not astronaut). 3. kitchen. 4. bedroom. 6–7. any correct answers. Quick-Answer: classroom; kitchen; school; bin; any family member.
